Social Media & Marketing Specialist

Bellevue, WA (Seattle/Kirkland area) | +1 (206) 979-4410 | reach2writer@gmail.com | linkedin.com/in/aakriti-pm/

PROFESSIONAL SUMMARY

Marketing strategist with a technical foundation in enterprise systems and 3+ years leading GTM, social media, and content for B2B SaaS brands across 4 client portfolios. Opened a \$250K revenue opportunity from a single product launch, lifted engagement 25% and high-intent lead capture 15%, and built an AI-assisted pipeline delivering 7 assets per brief at 40% higher output and 60% lower cost. Drove 15% MRR growth and \$50K+ new MRR in 90 days for a 10,000-user SaaS platform, and launched a chatbot with 200-article knowledge base that cut support volume 30%. Master's in Information Management, University of Washington.

CORE COMPETENCIES

Social Media Management | Short-Form Video (CapCut) | Canva | Copywriting & Storytelling | Brand Positioning | Content Calendars (Rella-ready) | Client Account Management | Email (Mailchimp, HubSpot) | SEO (SEMrush, GA4) | Figma / WordPress | Community Engagement

SEATTLE SOFTWARE DEVELOPERS, SEATTLE — GTM & CONTENT STRATEGIST — FEB 2023 - JUN 2024

- Unified GTM strategy and social calendars across 4 disconnected US portfolios (AutoTech, healthcare, e-commerce) with founders, engineers, and clinicians using SEMrush/GA4; lifted engagement 25% and cut churn 20%.
- Developed GTM for enterprise pricing engine spanning value proposition, buyer personas, segmentation, and messaging hierarchy; generated \$250K annual revenue opportunity in the first sales cycle.
- Built AI-assisted pipeline (ChatGPT, Claude, Canva AI, CapCut) producing 7 publish-ready assets per brief across blog, press, LinkedIn, graphics, and video; raised output 40% while lowering cost per asset 60%.
- Revamped 12+ under-converting landing pages with leaky funnels; rebuilt them in Figma and WordPress with keyword-driven copy and GA4-based fixes and ran Mailchimp nurture sequences tracked on opens and conversions across 3 launches; grew high-intent lead capture 15%.

Client: SafeLot, AutoTech SaaS — Brand Strategy Consultant

- Developed the market entry strategy for an early-stage IoT startup, reframing technical capabilities (Remote Engine Disabling, Real-Time GPS Tracking) as a dealership profitability platform for B2B buyers.
- Built persona-driven messaging for dealership owners and fleet managers, translating technical capabilities into business outcomes across website, sales collateral, and outbound campaigns.
- Established a trust-focused brand narrative and designed acquisition-focused digital experiences, connecting positioning, product workflows, and conversion touchpoints.
- Designed the end-to-end mobile and web product experience in Figma, including vehicle onboarding, fleet management, live tracking, vehicle status, lock/unlock, user access, and dealership workflows.

Client: Grace MindCare, Mental Healthcare — Strategy Consultant

- Built persona-based positioning and patient-acquisition plan for 3 new service lines (Ketamine Therapy, IV Therapy, Autism Evaluations), giving each a distinct story.
- Rewrote clinical service descriptions with a 15-member care team into patient-friendly language across 60+ FAQs, guides, and press narratives, easing onboarding and lowering barriers to care.

Client: Safety & Women-Focused Initiatives

- Led empathy-first messaging for digital tools serving vulnerable communities, centering user safety and ethical communication to build trust before first use.
- Shaped early-stage positioning and content for safety-focused platforms where clarity and credibility were critical to adoption.

HPE ARUBA — PRODUCT CONTENT & ENABLEMENT — JAN-NOV 2022

- Headed 8-person JTBD onboarding redesign and analytics-launch content for a 10,000+ user SaaS platform; delivered 15% MRR growth, 17% higher completion, \$50K+ new MRR in 90 days, and 23% fewer tickets.

TCS / SAP — PRODUCT ANALYST — 2017-2021

- Launched conversational chatbot and 200-article knowledge base with adoption playbooks across 5+ enterprise accounts; cut support volume 30% and standardized delivery.
